AMENDMENTS TO THE ABSTRACT:

Please amend the Abstract as follows:

ABSTRACT OF THE DISCLOSURE

A method of securely ~~initialising~~ initializing subscriber and security data in a mobile

routing system when the subscribers are also subscribers of a radio communication network. The

method comprises, within the mobile routing system, authenticating subscribers to the mobile

routing system using an authentication procedure defined for the radio communication network,

collecting subscriber information from relevant nodes of the radio network, and agreeing upon

keys by which further communications between the subscribers and the mobile routing system

can take place, and using ~~said~~ the subscriber information and keys in the provision of mobility

services to subscriber mobile nodes and correspondent nodes.
